Education details

Accurate Institute of Management & Technology ,Greater Noida,U.P. <i>Bachelor of Technology in Computer Science. CGPA- 7.64</i>	2021 – 2025 Greater Noida, Uttar Pradesh
S. Devi I. Collage Madhuvan Mau <i>Intermediate 69.2%</i>	2019 – 2021 Mau, Uttar Pradesh
Rajbali S. U. M .V Pidsui Ahilashpur Pidsui Mau <i>High School 78.83%</i>	2018 – 2019 Mau, Uttar Pradesh

Technical Skills

Languages: Java, C, JavaScript, HTML, CSS, SQL
Libraries/Framework: React.js, Bootstrap ,Node.js , Express.js, EJS,
Tools/Platform: VS Code, Eclipse, Git, GitHub, MySQL, JDBC,
DockerDatabase: SQL, MongoDB
Other: OOP (Object-Oriented Programming), REST APIs

Work Experience

Coding Ninjas –Teaching Assistance Remote	Jun 2024 – Oct 2024
<ul style="list-style-type: none">Assisted 500+ students in understanding Data Structures and Algorithms (DSA) through personalized 1:1 guidance and daily 2-hour doubt-clearing sessions.Consistently broke down complex concepts using practical examples, adapting to individual learning styles to enhance problem-solving skills. Maintained a 4.8/5 average student rating and a 1.02:1 assign-to-accept ratio, reflecting strong communication and mentoring abilities.	
Internship Trainee – QSpiders Campus Connect OnSite	Nov 2024 -May 2025
<ul style="list-style-type: none">Undergoing hands-on training in Java, SQL, and Web Technologies as part of a structured industrial training program. Participated in mock interviews, coding tests, and technical sessions to enhance job readiness and development skills.	

Projects

Explorique – Travel Listing Web App	GitHub
A full-stack travel platform enabling users to find and manage global stay options.	
<ul style="list-style-type: none">Developed using Node.js, Express.js, MongoDB, EJS, and Bootstrap for responsive UI.Implemented user authentication & authorization using Passport.js with secure session handling.Enabled users to search, add, review, and manage listings through dynamic, role-based interfaces.Integrated Cloudinary for image uploads and Mapbox for interactive geolocation mapping.Deployed backend on Render and database on MongoDB Atlas, demonstrating cloud deployment skills.Followed MVC architecture, modular routing, and clean code practices for maintainability.	
CreativPicAI – AI Image Generation SaaS Platform	GitHub
<ul style="list-style-type: none">Developed a full-stack AI-powered platform allowing users to generate images from text prompts, download, and manage them, integrating ClipDrop API for AI image generation.Implemented secure authentication, credit-based usage system, role-based access, and Razorpay payment integration, enabling scalable and monetized user experiences.Deployed on Render (backend) + MongoDB Atlas (database) with modular architecture and clean code practices, ensuring production-grade reliability.	
Spotify Clone	GitHub
<ul style="list-style-type: none">Developed a pixel-perfect, responsive landing page using HTML, CSS, and Flexbox to replicate Spotify's branding.Ensured cross-device compatibility and accessibility, showcasing real-world UI/UX best practices.	

Achievements

- 2 times select as the best-rated TA, and for exceptional attendance.
- 8 times top three performer on the leaderboard of the coding ninjas during the learning journey of DSA.
